

Sci-Fi Wall Pack 04 - Rusty Wasteland

Documentation & Technical Specification | 4K PBR Texture Set for Unity (URP)

1. Description

"Wall Pack 04 - Rusty Wasteland" is a collection of sci-fi/post-apocalyptic corroded and rusty wall panel textures, with 10 variants (5 clean + 5 damaged), designed for Unity projects using the Universal Render Pipeline (URP). The package includes full 4K PBR texture sets, ready-to-use URP Lit materials, and contains no neon or glowing elements.

2. Included Maps

- **BaseColor** - defines the diffuse color of surfaces.
- **Normal** - surface normal directions, used for detailed lighting without extra geometry.
- **Height** - elevation data for parallax effects.
- **MaskMap** (R: Metallic, G: Occlusion, A: Smoothness) - combined metallic/occlusion/smoothness map.
- **Emission** - black texture, no emissive lighting applied.

3. Technical Specification

Materials	10 (5 clean + 5 damaged)
Textures	50 (5 maps x 10 materials)
Resolution	4096 x 4096 (4K)
Format	PNG
Tiling	Seamless / tileable
Render pipeline	Universal Render Pipeline (URP)
Minimum Unity version	2022.3 LTS / Unity 6
Dependencies	None

4. Usage with URP Lit Material

- 1 Import the package into your Unity project.
- 2 Use the provided .mat files for quick setup in scenes using the Universal Render Pipeline (URP).
- 3 Adjust material properties as needed within the editor to fine-tune appearance.

5. Optimization Tips

- **Mipmaps** - enable mipmapping on all textures for better performance at varying distances.
- **Compression** - apply suitable texture compression settings based on your target platform.
- **Texture Streaming** - use texture streaming / LOD management to optimize VRAM usage and loading times.

6. AI Generation Disclosure

Base color textures were generated using Google Gemini 2.5 Flash Image (Vertex AI). Normal, Height, and MaskMap PBR maps were processed deterministically and locally (OpenCV / NumPy) - no AI/ML was used to generate these derivative maps.

7. License

Royalty-Free, single-seat, non-transferable license. See the included LICENSE.txt for full terms.
